Furnishing of **Munitions** Is Charge

SAN FRANCISCO, July 27-Georg Rodiek, president of the

It is specified in the indictment that Rodiek supplied money and munitions of war to Germany, the munitions being intended for use by the Hindus in India whom Germany planned to have rise against the English.

With Georg Rodick on the mainland, charged with complicity in the now famous Hindu conspiracy, despatches from the Coast yesterday indicated that the federal authorities are getting ready to arrest H. Augustus Schroeder, Rodto arrest R. Augustus Scatterder, non-ick's private secretary, and a reservist in the Kaiser's army. Marshal Smid-dy intimated that one reason why no action has been taken by the federal officials on the mainland as yet, although the indictment against the local man was returned July 8, is that it is felt that Schroeder is "safe enough where he is, and we can get him at any time he is wanted."

This opinion was more or less substantiated by despatches from San man and her partner and fellow anar-Francisco which stated that the arrest chist Berkman are to be deported in the of Schroeder is "due soon", and that event that their appeal shall be sue tion succeeded in getting a real start be is beammed in here, unable to es cessful according to plans of the gov on the aims of the newly formed busicape even if he wishes to do so. Schroeder yesterday issued a flat denial of all complicity in any plot convicted of conspiracy to defeat the against Great Britain in violation of Selective Draft. They repudiated their the neutrality laws of the United attorney and conducted their own de States. He also denied that any at-fense, in which they claimed that while tempt was made here to raise money they opposed conscription they had not for purposes other than for the Ger corspired against either registration or man Red Cross. "The collection of draft and that the utterances claimed this money was suspended immediate against them were prior to the passage ly after the severing of diplomatic relations between this country and Ger many, he is quoted as having account, this fund was handled by Mr. Rodick and myself, and the money was forwarded immediately to New York."

The indicted man also pointed out that mistake has been made in stating that he was at any time German consul here, as Mr. Rodick was succeeded by Mr. Schultze, who in turn was suceeded by the Spanish consul.

A bottle containing a mysterious fiquid, which the experts of the government are going to submit to rigid tests to ascertain whether it may not be a confure of anthrax germs, was discovered in his personal effects when they were scarched by the deputy sheriff who made the arrest.

In his pocket Weber was carrying a number of German war bonds, apparently with intention of offering them for sale to people in Hilo.

Max Weber, a German enemy, has miscion to Hawnii to become known, he made arrangements for a visit to Glenwood. He was followed by officials to that place, but manged to give his pursuers the slip and disappeared for three days.
